

Interpack 2005 the 17th World Packaging Exhibition held in Duesseldorf ended on the 27th April last.

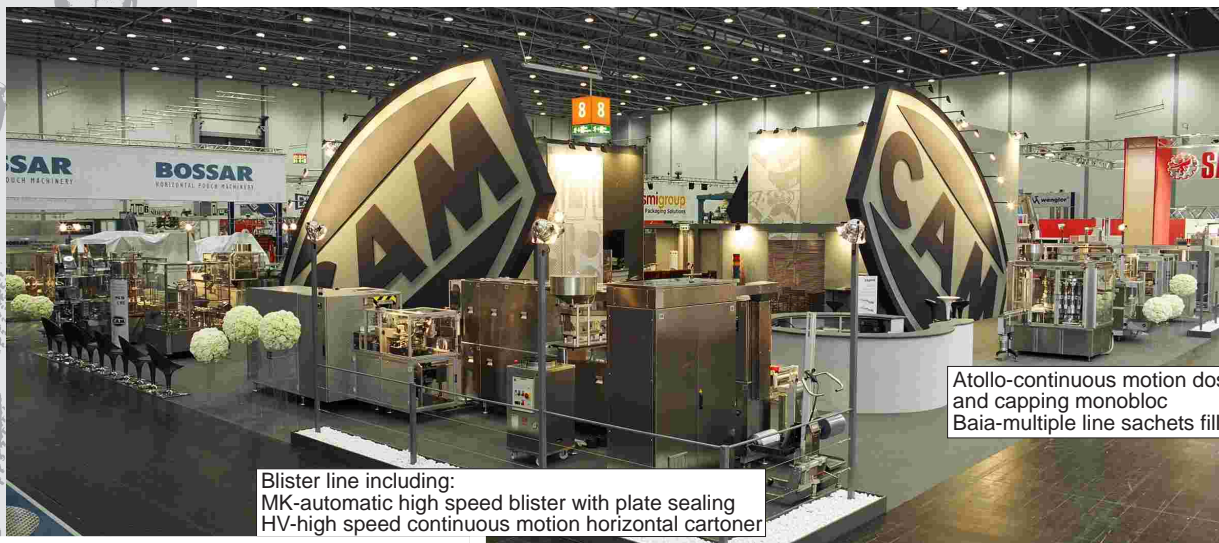

As for the past 30 years, CAM has excelled themselves by exhibiting a remarkable number of machines (22), a few been newly launched. Among these, our new Cartoners model KO and PMX.

The large stand (900 sm), the machines shown and the advertising campaign, all contributed to attract a large number of visitors from all over the world.

Thanks you all for your help in making CAM a showpiece.

visitors looking at PMX

CAM area was increased by 50% from 2002 (600 up to 900sq). CAM have shown consistency with their style by being courteous, offering good wine and good food (prepared by chefs), all Italian source.

The participation of CAM has been promoted by a remarkable advertising campaign, including impressive banners in the Exhibition Hall as well as in the town main streets.
